This is a resource for job-seekers with disabilities to find open positions with companies across the country (including AZ) who are disability-friendly. Disability Solutions offers training to companies and helps them reach out to qualified applicants who happen to have a disability.

Job-seekers can use the tools on the website such as the job listing search engine, create an account to receive job alerts, and register for webinars on various job-seeking topics.

NPC students and alumni may reach out to Kevin at his contact information above if they have any questions about the website resources. Employers may also reach out to Kevin if they would like to partner with his organization.
