Haven Health has many locations throughout Arizona and the western U.S. They are a skilled nursing facility that provides both long- and short-term care. Some of their locations also have assisted living. This presentation focused on the facility at Lakeside, AZ.

They have a variety of positions that include CNA, LPN, and RNs. Their entry-level position that requires no education or experience is the “Valet” position, which serves as a launching point into CNA. They offer tuition assistance and have a lot of examples of career pathways.

Non-healthcare positions discussed include Marketing & Admissions, which someone with an Associate’s degree in Business with excellent communication skills and personal maturity would be a good match for. Their “Business Office Manager” is a good match for a graduate from our “Medical Office Administration” program.

To apply, contact Mr. Zachary Plucas, and he will send you an application and guide you through the process. If you have questions about any of the positions or qualifications, you may also contact him or Mr. Anthony Trehern.
