Course, Title and Description for the Top 10 Courses:

MAT-152 Advanced Algebra (3)

Algebraic concepts at the college level. The approach is intuitive and interactive, with an emphasis on real-life applications and the use of current technologies, particularly graphing calculators. Coursework includes a review of basic algebra, progressing to techniques for solving equations and inequalities both algebraically and graphically. Also covers polynomial, rational, radical, exponential and logarithmic functions and their graphs, as well as sequences, series and combinatorics; TI-83 graphing calculator required. Prerequisite: MAT 112 or MAT 121, or satisfactory placement..

ENL-101 College Composition I (3)

Basic principles of writing college-level, academic essays, including a short research paper. Prerequisite: Satisfactory placement, or ENL 100 or TLC 090.

MAT-189 Precalculus Algebra/Trig (3)

Concepts in algebra and trigonometry necessary to prepare for calculus. The approach is intuitive and interactive with an emphasis on real-life applications and the use of current technologies, particularly graphing calculations. Coursework includes trigonometric functions, analytic trigonometry, vectors and applications, systems of equations and inequalities, matrices and determinants, and analytic geometry. Prerequisites: Graphing calculator required; MAT 152.

ENL-102 College Composition II (3)

Basic principles of writing college-level, documented critical essays, including the longer research paper. Prerequisite: ENL 101.

WLD-100 Safety & Math (2)

Introduces trainees to principles and procedures needed to work safely in the construction environment and includes common safety equipment with procedures for inspection and use.

BUS-100 Introduction to Business (3)

Business administration as applied to both large and small firms. Includes marketing, management, personnel relations, finance, the stock market and the economic environment of capitalism.

PSY-101 Introduction to Psychology (3)

Survey of the science of psychology including history and systems, physiology, development, sensation and perception, learning theory, abnormal psychology, personality, and memory and cognition. Prerequisite: Satisfactory placement.

WLD-150 Symbols, Draw/Metal Prep (2)

Teaches welding trainees how to read and interpret AWS standard welding symbols and welding detail drawings, as well as how to prepare base metal joints for welding. Co-requisite: WLD 100.

CHM-130 Fundamental Chemistry (4)

A fundamental course for general education, nursing/allied health and nonchemistry major students. Prerequisite: MAT 109/112 or MAT 121 or satisfactory placement.

WLD-151 Cutting Proc & Weld Qual (3)

Introduces welding trainees to oxy-fuel cutting (OFC), plasma arc cutting (PAC) and carbon arc cutting (CAC). Teaches student to understand and apply weld quality principles. Co-requisite: WLD 100.

Policies adopted by the District Board:

Policies provide for compliance with A.R.S. 15-1805.01. The admission policy of students under 18 provides that students may be admitted with a satisfactory SAT or ACT score. Students only enrolling in Career and Technical Education courses are exempt from providing the required SAT or ACT scores. High school students who have not taken the SAT or ACT may enroll in classes with the permission of college officials and are subject to the same course entry requirements for students who seek admission under "regular student" status. Students who are younger than high school age will only be admitted with satisfactory SAT or ACT scores or by special permission of the vice president for learning and student services. NPC may limit the number of semester hours in which students under 18 may enroll.

Appendix A

This report covers section D of the statute.

15-1821. Special admission of students under age eighteen; enrollment information; reports

A. Each community college district board shall adopt policies which require community colleges under its jurisdiction to admit students under age eighteen who have not yet attained a high school diploma or high school certificate of equivalency and who meet the established requirements of the courses for which they enroll. The Arizona board of regents shall adopt rules which require the universities under its jurisdiction to admit students under age eighteen who have not yet attained a high school diploma or high school certificate of equivalency and who meet the established requirements of the courses for which they enroll.

B. The policies and rules as provided in subsection A shall include the following provisions:

1. No student under age eighteen shall be denied admission because of age, lack of a high school diploma or high school certificate of equivalency, grade in school, lack of permission of school officials or lack of concurrent enrollment in a public or private school, if the student has achieved at least a specified score on a college entrance examination.

2. A community college or university which admits a student pursuant to paragraph 1 of this subsection may limit the number of semester credit hours in which the student may enroll to no less than six semester credit hours.

3. A student admitted to a community college or university pursuant to paragraph 1 of this subsection is not guaranteed admission to a specific degree program or to all courses offered by the community college or university.

C. Each community college district and the Arizona board of regents shall provide all high schools in this state with information which describes the policies and rules, as appropriate, the types of courses available and other information related to the enrollment of students under the age of eighteen. Each unified or high school district school shall make this information available to all students in at least grades nine through twelve.

D. On or before November 15, each community college district and the Arizona board of regents shall submit a report to the president of the senate, the speaker of the house of representatives and the state board of education and shall provide a copy of this report to the secretary of state and the director of the Arizona state library, archives and public records, on students under eighteen years of age who had not yet attained a high school diploma or high school certificate of equivalency and who were enrolled in a university or community college course or a program for community college or university credit during the time period of September of the previous fiscal year through August of the current fiscal year. The annual report shall include at least the following:

1. The number of students who were enrolled.

2. A general narrative of the types of courses or programs in which the students were enrolled.

3. The rules adopted pursuant to subsection A.

E. On or before September 30, each institution under the jurisdiction of the Arizona board of regents shall submit to the Arizona board of regents in the form specified by the Arizona board of regents the information that the Arizona board of regents needs to compile the report required in subsection D.
